

Claim Troubleshooting Guide

There were problems with your claim file

Why: This error occurs when the file you are attempting to upload is either incorrectly formatted or contains incorrect information. Hover the cursor over the red '!' icon to see a further description of the error (as per example below 'Medicare number is invalid')

⊗ There were problems with your claim file

A common error to occur is when the title row has been removed. Try resubmitting a claim and ensure the Title Row remains unchanged in row 1. See examples.

Please resolve the issues identified and then resubmit your claim file.

- There are line item errors in your claim file. Please see the table below for further information about the errors. Please rectify the errors and resubmit your claim file.

Child first name	Child surname	Child gender	Child date of birth	Parent Email	Child suburb	Child postcode	Australian Visa Nu	Medicare number is invalid.
Sam	Smith	Male	04/11/2007	parent@email.com.au	West Lakes	5021		12345678911 ! Jc

How to solve:

a) Copy information to a brand new claim template and save as .csv file

Copy all the required information from your current claim spreadsheet and paste it into a brand new claim template (available from the Sports Vouchers portal). See b) regarding saving the spreadsheet correctly.

We highly recommend this step as it has solved many issues.

b) Ensure it is saved as a .csv file.

Select 'Save As', then select 'CSV (Comma Delimited)' format from the 'Save as type' drop down menu.

Please note that the template is provided in the correct format.

c) Ensure that all information entered outside the headings provided is deleted

Additional information entered outside of the provided headings – the Title Row – will prevent the file uploading. Delete any additional data before submitting.

L	M	N	O
Parent email	Used a voucher this calendar year?	Member prior to using voucher?	
parent@email.com.au	No	No	No
parent@email.com.au	No	No	No
parent@email.com.au	No	No	No
parent@email.com.au	No	No	No

d) Make sure the headings have not been removed or altered

Please only fill out the provided fields on the spreadsheet and do not change the Title Row headings.

Please leave the Visa field blank if there is no Visa number (eg: do not enter N/A).

If the headings have been removed or changed, use steps a) and b) to resolve.

Date of Birth is outside accepted range for selected claim year

Why: Only children who are eligible to attend Reception to Year 9 (5 to 15 year olds) in South Australia may claim a voucher. As such when uploading a claim each child's date of birth is validated to ensure it falls within the accepted age range.

	A	B	C	D	E	F
1	Child first	Child surname	Child gender	Child date of birth	Child suburb	Child postcode
2	Sam	Smith	Male	4/11/2004	Adelaide	5000
3	Jane	Smith	Female	5/11/2011	Adelaide	5000
4	Sally	Brown	Female	6/11/2012	Adelaide	5000
5	John	Brown	Male	7/11/2013	Adelaide	5000

How to solve: If the child is not aged Reception to Year 9*, you will need to remove them from the claim.

*This means a child is aged 5 or turning 5 years old in the calendar year you are using a voucher through to 15 years old (inclusive).

Medicare number is invalid

Why: Medicare numbers are validated for authenticity upon submission. Please ensure that parents provide you with a complete and accurate 11-digit Medicare number upon using their voucher.

How to solve: Obtain the correct 11-digit Medicare number from the parent. The 11th digit is the family reference number next to a child's name on their Medicare card.

Make sure that there are no spaces or symbols entered in the field on the spreadsheet.

This is a duplicate entry

Why: Any duplicate entries within a claim will not upload.

	A	B	C	D	E	F	G	H
1	Child first	Child surname	Child gender	Child date of birth	Child suburb	Child postcode	Australian Visa Number	Medicare number
2	Sam	Smith	Male	4/11/2010	Adelaide	5000		12345678911
3	Jane	Smith	Female	5/11/2011	Adelaide	5000		12345678912
4	Sally	Brown	Female	6/11/2012	Adelaide	5000		12345678913
5	John	Brown	Male	7/11/2013	Adelaide	5000		12345678912

How to solve: Delete any duplicate claims from your csv file. If there is an error in which a parent has provided the same Medicare number for siblings, ensure that the parent provides you with the correct 11th digit (the family reference number on the card next to each child's name).

This is a required field

Why: Blank fields will prevent a successful upload. All fields must be filled out accurately and be correctly formatted.

How to solve: Fill out empty fields or delete any rows which are entirely blank so that there are no gaps between rows.

The only exception is a valid Medicare OR Australian visa number (as long as there is a correct number entered into either of these fields this will still upload).
